

Eimskip's warehouse

The bonded warehouse offers total solutions from either port of loading or the minute your cargo arrives to the country, until the customer receives it.

Eimskip's bonded warehouse offers its customers an all-in warehouse service in line with the company's vision. Eimskip Logistics AB offers a warehouse hotel, cross docking area and CFS for dry and temperature controlled cargo.

The warehouse stores over 7000 pallets. It is temperature controlled, and has an air cleaning system that is ideal for dry goods storage.

We also offer a 450 pallet cold store with a temperature of -25° Celsius, tailor made for cross docking and short to medium time storage. Our chilled store with a capacity of 850 pallets with temperature zones from 15 to 4 degrees.

The warehouse offers its clients specialized service, such as marking, packing and testing of products.

Eimskip's warehouse has from the beginning used the newest technology in inventory management.
